

Universität Stuttgart

Institut für Automatisierungstechnik
und Softwaresysteme

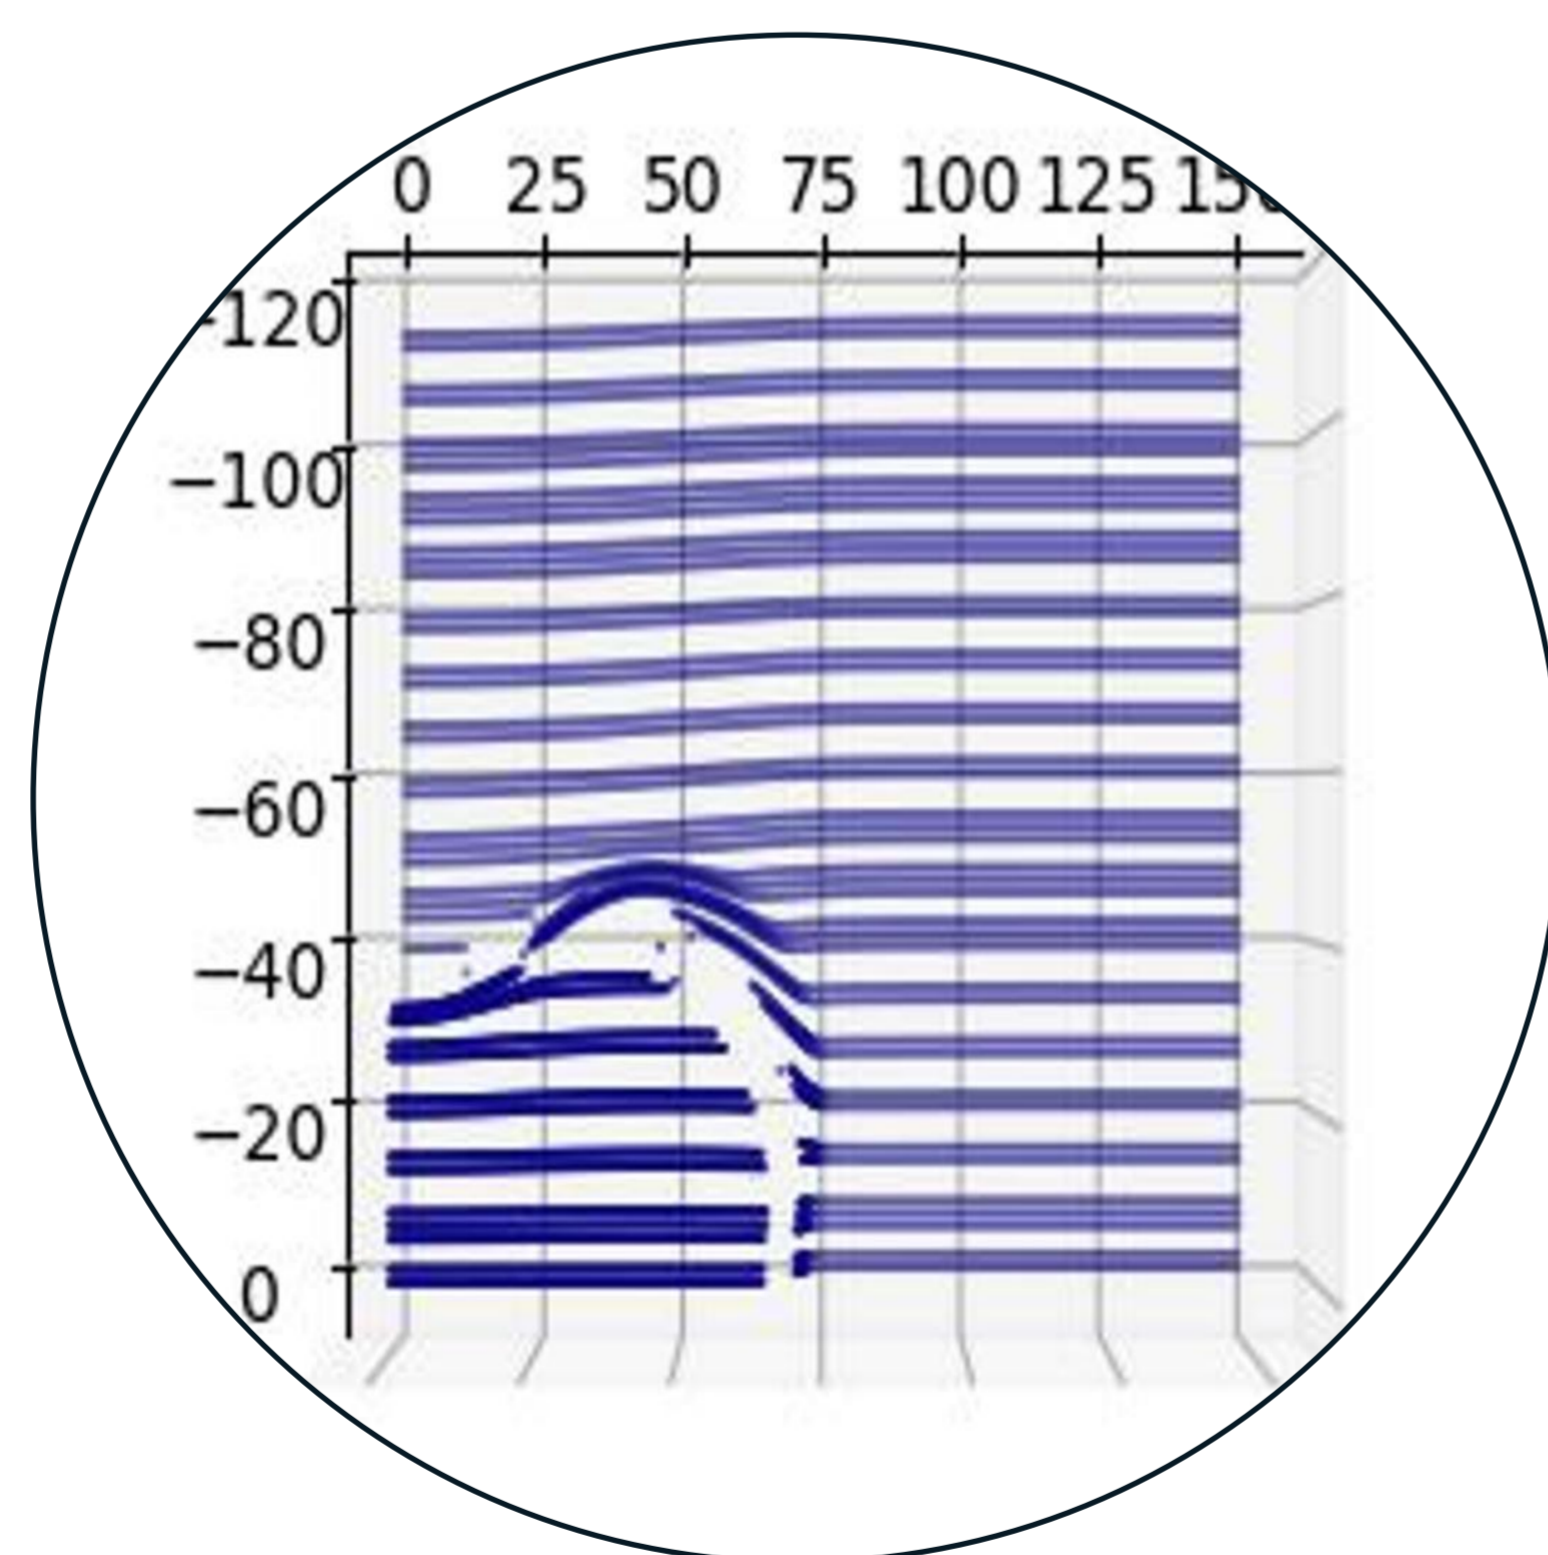

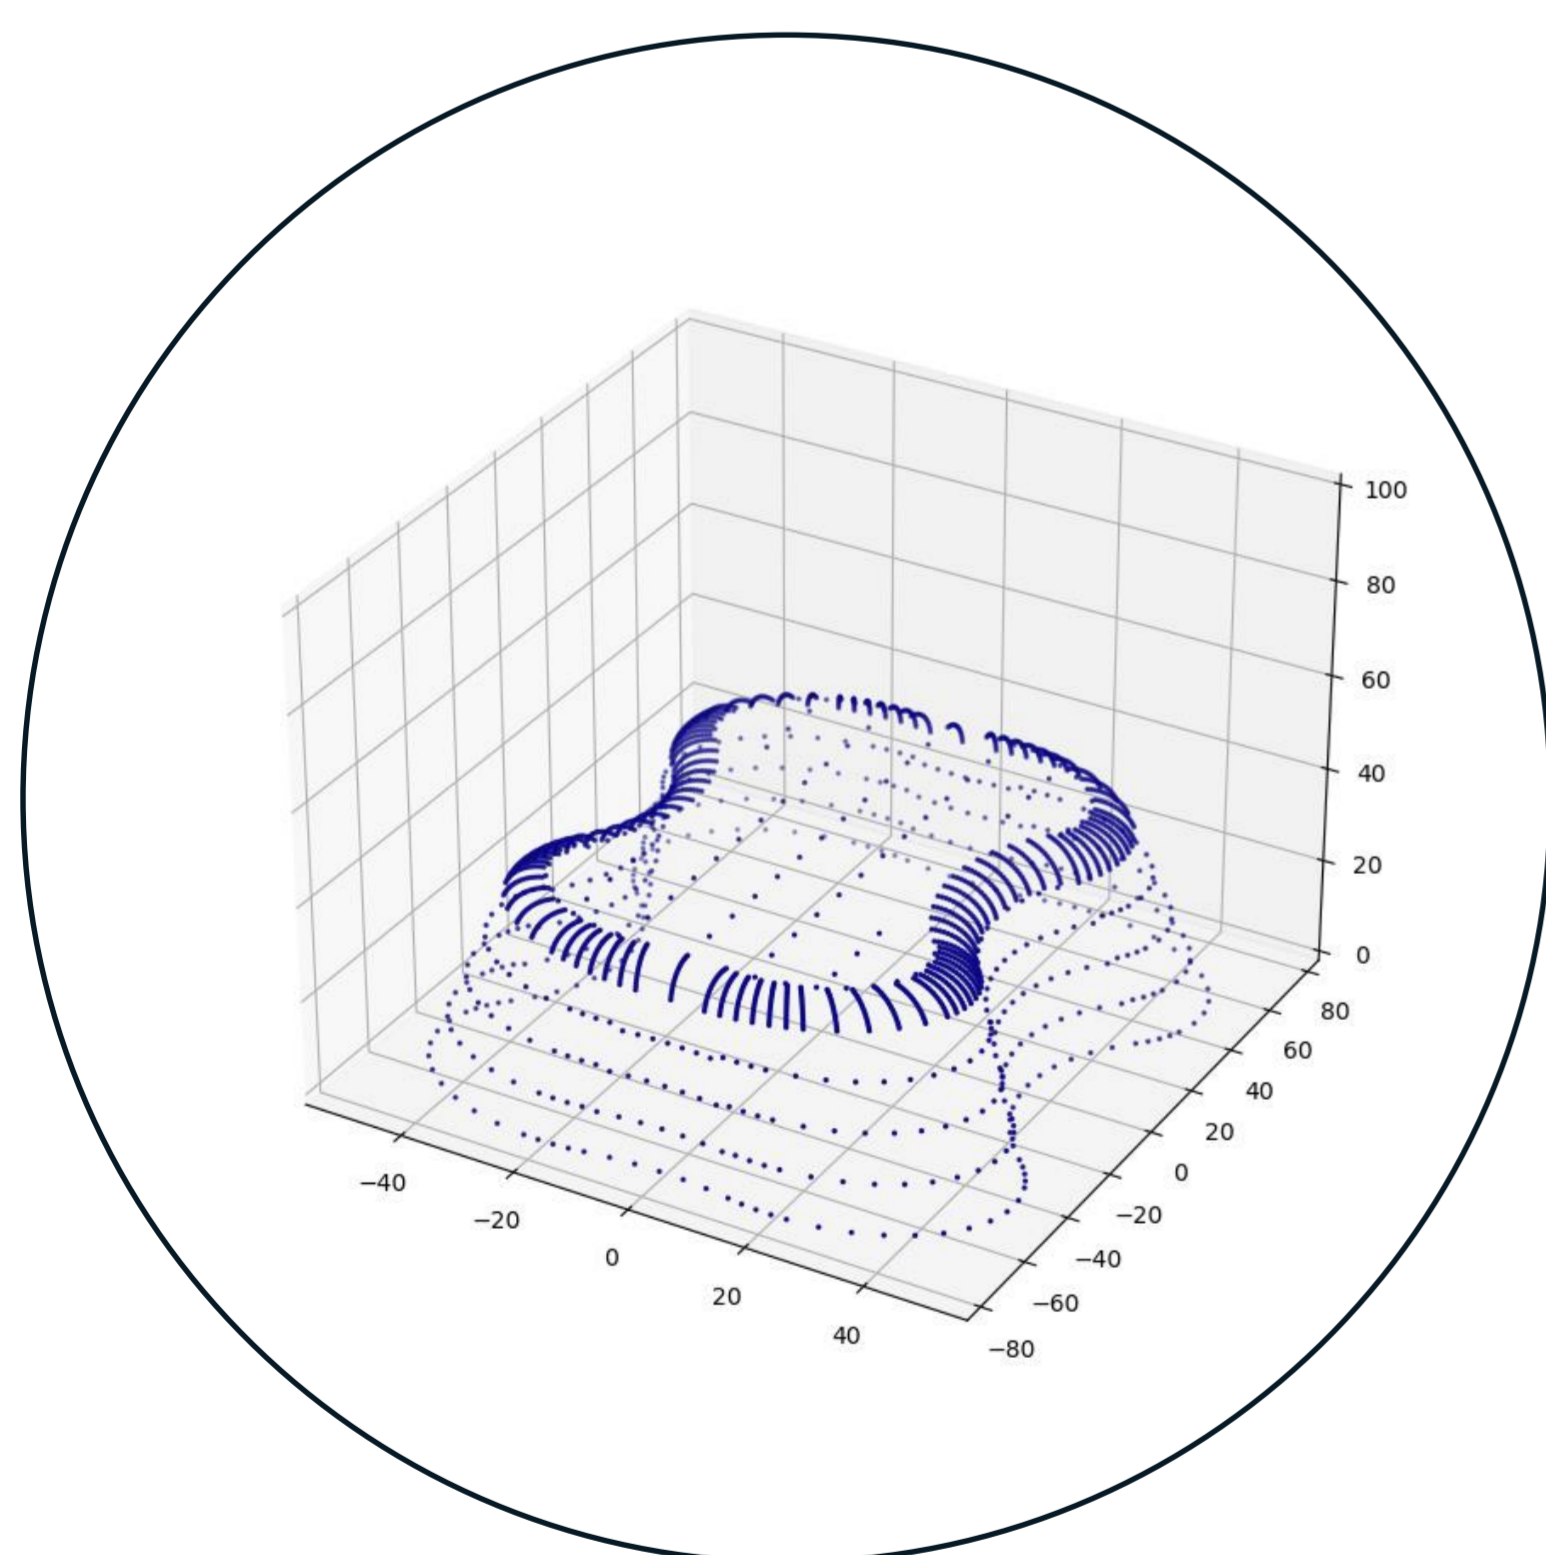

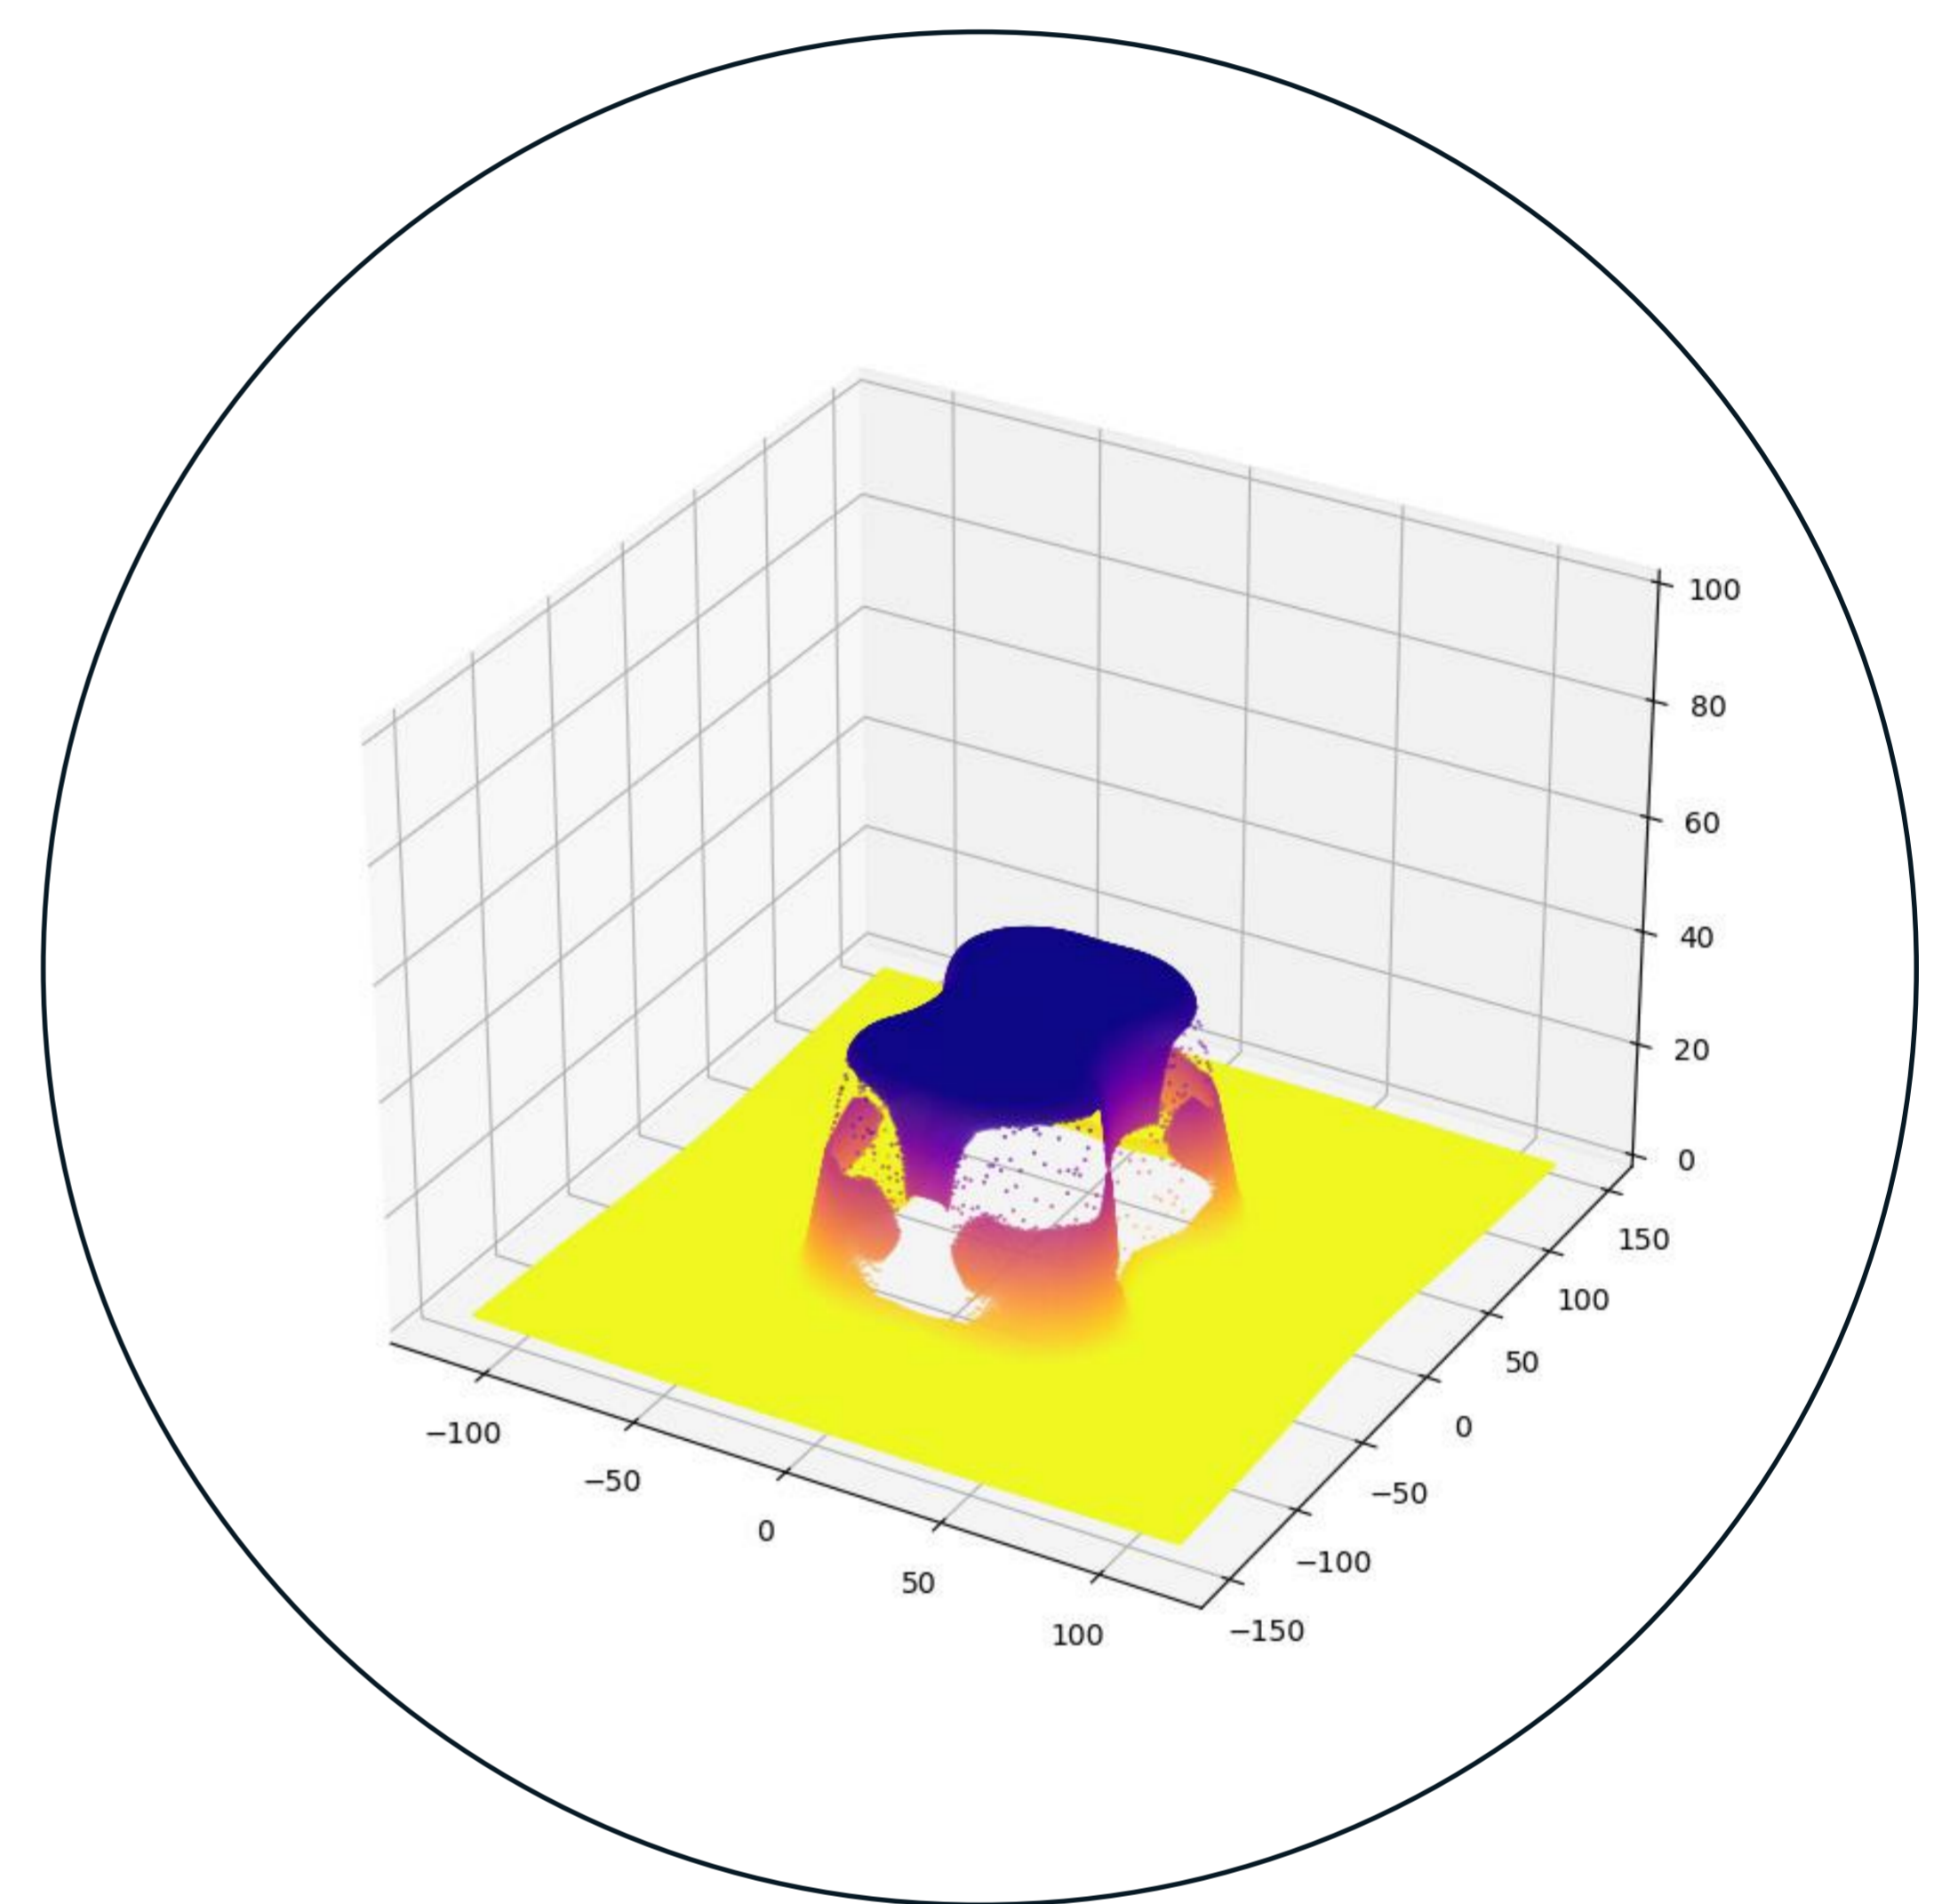

**Assistance at the IAS in the
field of artificial intelligence
and data processing**

**HiWi
gesucht**

**Are you interested in data
processing, artificial intelligence
and manifolds?**

Tasks

- Extract data and build machine learning pipelines.
- Read current papers and contribute your own ideas.
- Migrate other projects into the institute's software stack. Try out different programming languages like Python and C++!

**Would you like to
combine practical
experience and
research?**

Requirements

- Ability to work independently and responsibly
- Good knowledge of German and English
- Programming skills
- Knowledge of deep learning

**Python,
data processing,
artificial intelligence
and much more!**
